Everyone is Invited!

Come and join us for a fun and educational weekend. Witness craftsmen and artisans demonstrate how to make arrowheads, spears, stone tools, bows, atlatls, stone pipes, cordage as well as other items from hide and bone. Flint Ridge is the same location the Native Americans visited to quarry flint they needed to produce weapons and tools for everyday survival. Take a nature walk through the woods on the park trails and see the remains of the ancient quarry pits left behind by the native people. Then take a tour of the museum to learn about the history and geology of Flint Ridge.
